

THE MOBILE DENTIST FINANCIAL POLICY

Please, let me describe our financial policy, I would like to email this to you for your records.

To confirm this appointment, a \$50.00 credit card reservation deposit is required. **This fee is fully refundable if the appointment is cancelled or rescheduled, with 48 hours' notice, prior to the scheduled appointment time.** The deposit will be applied to the balance due at the time of the appointment.

On the day of the appointment:

We utilize a mobile dental clinic, it will be staffed by a dentist, and two dental assistants. We will address the issue or issues that you are concerned with at that time. If necessary and recommended by the dentist, all appropriate x-rays will be taken, processed and diagnosed by the dentist. The dentist will proceed with any dental treatment that you have authorized. If the dentist recommends a different treatment path, we will obtain your approval and advise you of any additional fees prior to this alternate treatment being initiated.

Initial dental appointment includes, for routine non-emergency dental care:

Comprehensive dental examination, oral cancer screening, periodontal(gums) evaluation, x-rays and diagnosis, treatment plan, basic dental cleaning, and a topical fluoride treatment

The fee for this treatment is \$375.00

I also want to advise you that we have a broken appointment fee:

If for any reason the patient refuses treatment, the facility does not have the patient available for the appointment, another patient commitment interferes with the dental appointment, (you may want to advise and confirm with the facility that you have set up this appointment), a \$200.00 broken appointment fee will apply.

Our minimum fee for any dental appointment is \$350.00

Frequently, situations arise when we need to evaluate a patient condition, swelling, pain, broken teeth, etc. We can send a staff member, (dentist or x-ray tech), with or without the mobile clinic, to evaluate the situation, and have the situation followed up by the dentist and a report made back to you.

FEE: \$350.00

If the situation is that treatment can be initiated at that triage appointment, example: the patient needs a new denture, the \$350.00 can be applied to the cost of that denture, assuming the denture can be started at the time of the appointment.

There are many unforeseen situations, we are open to discussing and developing specific treatment options for you and your unique needs.
